

# Automatic Doors

Alimatic Ltd can transform the look of your entrance by supplying and fitting a new automatic entrance door. Automatic doors allow you to improve the look of your entrance whilst improving ease of access into the building. The Alimatic automatic entrance door is ideal for medium to high volume pedestrian access in many commercial environments. New legislation concerning Disability Discrimination also means that entrances must be fully useable by disabled people. An automatic door will allow you to comply with the DDA legislation by ensuring ease of access for both able bodied and disabled people.

Our automatic entrance door range consists of:

- Bi-Folding Automatic Door
- Swing Automatic Door
- Straight Sliding Automatic Door
- Telescopic Sliding Automatic Door

We are able to manufacture doors to many configurations.

Each of our door ranges can be customised to your own requirements by choosing from a range of options.
